Politecnico di Torino

Spike IAM Reply is the company within the Reply Group dedicated to Identity Governance, Access Management, API Security, and all identity-related aspects of cybersecurity, delivering innovative IAM solutions based on open-source technologies and market-leading suppliers.

The firm supports clients across many industries including Banking, Consumer Credit, Insurance, Manufacturing, and Healthcare, in integrating comprehensive infrastructures for managing the lifecycle of identities and their access rights across multiple systems and applications.

In alignment with the broader mission of Spike Reply, which focuses on cybersecurity and personal data protection, Spike IAM Reply is committed to safeguarding the values and privacy of individuals, companies, and processes. The company aims to foster a security-oriented culture across enterprises through vendor-independent consulting services, ensuring the confidentiality, integrity, and availability of systems.

By leveraging industry best practices and cutting-edge solutions, Spike IAM Reply empowers organizations to protect their critical assets and optimize user access in a sustainable digital landscape.
