EXPLAIN CYBERSECURITY WITH AN APERITIF

DIGITAL TWIN AS ENABLER FOR CYBERSECURITY

7th SEMINAR

OCT
09

4.00 pm

Aula R1
Politecnico di Torino

Christian Gehrman

Christian Gehrman received his M.Sc. in Electronic Engineering and PhD in Information Theory from Lund University, Sweden, in 1991 and 1997, respectively. He is a Full Professor of Computer Security and head of the Security and Networked Systems division at the Department of Electrical and Information Technology at Lund University. He has contributed significantly to industry standards, including Bluetooth, Trusted Computing Group, and ONVIF (network video). With over 30 years of experience in secure computer and communication systems, he holds numerous publications and patents in information security, with over 4600 citations and an H-index of 38. His research focuses on secure system design, secure execution environments, and security protocols.
